Attitudes and Customs  
Eating and Greeting  
Business and Work  
Home and Family  
People and Places  
Past and Present  
Technology and the Economy

**Fun, Educational**  
and **Interactive**

*Bringing Students a World of Experience*

Our students today are more diverse than they have ever been. As Stephen R. Covey said " Strength lies in differences, not in similarities". But what good is our diversity if we don't know how to embrace it?

Understanding diversity is required for students to be successful in the rapidly changing and interconnected world in which we live. With it's interactive and entertaining format, **Diversity Matters** helps students embrace diversity and develop empathy to connect with people who are different than them.

## About Byron
